NOTE FOR [REDACTED]

25X1A9a

[REDACTED] called and said that he had a request which the Printing Services Division had submitted for nine additional positions. He was in the process of reviewing the request and sending it on to Col. White. It appears that when State Department Printing was transferred to the Agency nine positions were frozen. The Printing Services Division now wants to fill nine positions, and [REDACTED] wanted to discuss whether it would not be profitable to have Management take a look at whether or not the activation of the positions was really warranted.

25X1A9a

He asked if Management Staff had in process any study of Printing Services and I told him that I was not aware of any; that I would tell you of his concern and that he, [REDACTED] was recommending such a course of action to Col. White; and that we had just had some Management work in Logistics and the people who conducted the study were knowledgeable to a limited degree on the Printing Services Division. He said yes he had received a copy of Logistics' reply to that survey and he said it appeared to him that there were more pages in their rebuttal than were in the original study.
